

COLLEGIATE & SPECIAL MARKETS **FALL 15**

FALL 2015 TECHNOLOGY

Columbia is an outdoor company, but in many ways, we are a technology company. Columbia's commitment to innovation runs throughout our entire product offering, and this commitment sets us apart from the competition. Our family of technologies has been designed with one thing in mind: you. Whether it's keeping you WARM, DRY, COOL, or PROTECTED, we're focused on serious solutions for a simple challenge: to enhance your experience of the outdoors. Whatever your activity, whatever the condition, Columbia's got you covered.

WARM

DRY

COOL

PROTECTED

MAKE YOUR OWN HEAT

OMNI-HEAT® THERMAL REFLECTIVE

Manages body heat. The patented technology helps regulate your temperature with little silver dots that reflect and retain the warmth your body generates. Omni-HEAT® Thermal Reflective's breathable material also dissipates moisture and excess heat.

STAY INSULATED AGAINST THE COLD

OMNI-HEAT® THERMAL INSULATION

Technology helps maintain warmth and minimizes heat loss with the greatest heat retention per gram in the industry. Additionally, this insulation is eco-friendly with 50% recycled content.

WICKING ACCELERATED

OMNI-WICK® EVAP

Is the next evolution in advanced wicking technology. We've cranked up the performance of our existing Omni-WICK® platform by incorporating a special compound that disperses sweat quickly across a broad surface area for accelerated evaporation, creating a fabric with incredible sweat dissipating properties.

KEEPS YOU DRY AND COMFORTABLE

OMNI-WICK®

Pulls moisture away from the body and enables perspiration to evaporate quickly, keeping you dry and comfortable.

ENJOY THE SUN SAFELY

OMNI-SHADE®

Blocks Ultraviolet A and Ultraviolet B rays (UVA and UVB), helping to prevent sunburn and long-term skin damage. Omni-SHADE® carries The Skin Cancer Foundation's Seal of Recommendation, given to sun-protective fabrics that have a minimum UPF of 30. You can read more about The Skin Cancer Foundation here: <http://www.skincancer.org/>

RESIST RAIN AND STAINS

OMNI-SHIELD®

Helps you stay clean and dry by resisting liquids from absorbing into the yarns and staining the garment or footwear. The fabric also dries several times faster, without holding moisture like a conventional fabric, meaning it stays lighter even when its wet.

SWEAT-ACTIVATED COOLING

OMNI-FREEZE® ZERO

Is the industry's leading cooling technology. The Omni-FREEZE® ZERO blue rings react with your sweat to lower the overall temperature of the material, accelerate the wicking process and provide an instant and prolonged cooling.
